Sreya Guha

sreyaguha@gmail.com

Product Manager at Crosby AI, AI-native law firm, where I am responsible for customer integrations and the core internal platform. Experienced in setting product roadmaps, leading cross-functional teams, and piloting new revenue streams that open new markets. Graduate computer science training and legal experience (in both public and private sectors) equip me with a deep understanding of technology and the legal work it supports.

EDUCATION

Stanford University – M.S. Computer Science *March 2024*
Concentration in Human-Computer Interaction. GPA: 4.0

Stanford University – B.S. Symbolic Systems with Honors *March 2023*
Concentration in Artificial Intelligence. GPA: 3.8

SKILLS

Experienced building with AI coding agents including Claude Code, Codex, and Devin. Proficient in Python, JavaScript, SQL, and PyTorch. Background in policy analysis and research.

EXPERIENCE

Crosby AI – Product Manager *July 2025–*

- Joined as the second operations hire at Crosby, an AI-native law firm focusing on commercial law, backed by Sequoia, Index, and Lux Capital.
- Owned the Series B launch end-to-end, spanning marketing, internal and external comms, and client outreach.
- Owned key customer accounts (e.g., OpenAI).
- Promoted from Product Operations to Product Manager customer integrations and core internal platform in July 2026.
- Piloted new revenue streams, including integrations and counterparty-facing capabilities that opened new markets such as financial services.

Remarkable AI – Product Manager *Feb 2024 – June 2025*

- Set product roadmap, feature priorities and scoping for B2B SaaS AI products as first PM.
- Scaled hero product, Retain AI, from 100% manual to 50%+ automatic workflows.
- Promoted from Associate Product Manager to Product Manager in Jan 2025.

Center for Democracy and Technology – Extern *Jan 2024 – March 2024*

- Researched and analyzed privacy policies, transparency requirements, and disclosure requirements of foundation model providers for report on AI policy.

Stanford Law School – Data Science Research Assistant *June 2023 – Feb 2024*

- Created and managed SQL databases for litigation transparency project supervised by Professor David Engstrom.
- Applied machine learning tools, including open-source LLMs, to classify and understand legal dockets.

Climate Analysis for International Rescue Committee Emergency Watchlist *May 2023 – Nov 2023*

- Built models for incorporating climate change as a factor for International Rescue Committee Emergency Watchlist (published in Dec 2023).

County of Santa Clara Public Defender's Office – Intern *June 2022 – Sept 2022*

- Analyzed and provided reports on evidence for ongoing felony trials.
- Assisted in voir dire process and client interviews for felony trials.

D.C. Superior Court – Intern *June 2021 – Aug 2021*

- Worked on education modules and introduction of new case management system.
- Assisted with internal review of case management documents and judge-in-chambers cases.

Global Digital Policy Incubator, Stanford University – Research Assistant *June 2020 – June 2023*

- Contributed to biweekly human rights and technology digest.

- Wrote memos about specific human rights and artificial intelligence issues (e.g., facial recognition, UNESCO recommendations on the ethics of artificial intelligence).

Computer Science Department, Stanford University – Research Assistant *June 2020 – Aug 2020*

- Worked on PolicyKit, software infrastructure for community governance in Professor Michael Bernstein's Lab.
- Integrated Reddit API into PolicyKit.
- Designed and implemented user interface for PolicyKit.

RESEARCH AND PROJECTS

Undergraduate Honors Thesis in Fisher Family CDDRL Honors Program *2022*

- Built custom scrapers to collect 4.5 million accounts, 7.4 million posts, and 47 million follower links from an unmoderated social media platform before and after it was taken offline.
- Combined this with a public dataset of 183 million posts, using lexicon-based text analysis, a keyword classifier mapping hashtags to 15 topics, and user cohort analysis to measure how content and user activity changed over time.
- Advised by Professor Larry Diamond.

Policy Lab: Innovating Privacy Protection: Tools and Strategies for California Cities *2020*

- Participated in Stanford Law School Policy Lab led by Professor Phil Malone.
- Worked with vice-mayor and city attorney of Berkeley to compile recommendations on local privacy and related consumer-protection legislation and regulation.
- Consulted privacy experts and relevant stakeholders to produce report of best practices for privacy.

AWARDS AND HONORS

Public Interest Law Fellow *June 2022 – Aug 2022*

Best Overall Project, Pitch and Concept Video in CS147, Introduction to HCI Design *Jan 2022*

Student Speaker at Freshman and Sophomore Convocation at Stanford University *Aug 2021*

ACM/CSTA Cutler-Bell Prize in High School Computing *March 2017*
